VET-READY

WORK PACKAGE 2

The Descriptive Mapping Report on Disaster Awareness and Life-Saving Skills

The VET-READY consortium has successfully completed Work Package 2 – Descriptive Disaster Awareness and Life-Saving Skills Mapping. This EU-wide study engaged more than 500 participants, including educators, learners, migrants, and diaspora communities, to identify knowledge gaps, training needs, and best practices in disaster preparedness.

Availability

The Descriptive Mapping Report on Disaster Awareness and Life-Saving Skills is available in English, Spanish, Latvian, Turkish Greek, Icelandic and Ukrainian.

VET-READY

Engagement

Through surveys and focus groups for the Descriptive Mapping Report on Disaster Awareness and Life-Saving Skills, 545 participants were involved across partner countries: 155 VET educators, 254 learners and adults, and 136 migrants and diaspora members, including Ukrainians.

This broad participation revealed real training needs, highlighted misinformation challenges, and showed strong demand for practical life-saving skills.
The findings ensure that the upcoming WP3 curriculum directly responds to the realities of our target groups.

VET-READY

About the project

VET-READY is an Erasmus+ initiative dedicated to strengthening disaster preparedness through vocational education and training. Our mission is to equip VET trainers with the tools to teach life-saving skills, empowering vulnerable communities—including migrants, refugees, and Ukrainians affected by conflict—to respond effectively to crises.

Our Vision

Transforming Disaster Preparedness Through Vocational Training

Through collaboration and tailored training, VET-READY fosters resilience, preparedness, and community support in the face of future disasters.

In a world increasingly impacted by disasters, our project serves as an innovative force, providing practical solutions to enhance resilience and ensure communities are better prepared for future emergencies.
