VET-READY

Chapters of the Descriptive Mapping Report on Disaster Awareness and Life-Saving Skills

- **Introduction & Methodology** — Research design, tools, target groups
- **Desk Research Findings** — Disaster Awareness And Learning Opportunities In Partner Countries
- **Survey & Focus Group Results** — Data Collected From 545 Participants Across Target Groups
- **Best Practices & Misinformation Analysis** — 18 Good Practices Identified And Key Challenges Highlighted
- **Conclusions & Recommendations** — Priorities For Curriculum Development Under WP3

1. Improved Disaster Awareness – Limited knowledge among learners and educators.
2. Accessible Training Opportunities – Gaps in adult learning systems for vulnerable groups.
3. Combating Misinformation – Strong impact of myths and false information on disaster response.
4. Life-Saving Skills Development – High demand for practical first aid, evacuation, and resilience skills.

The Descriptive Mapping Report on Disaster Awareness and Life-Saving Skills is available in English, Spanish, Latvian, Turkish Greek, Icelandic and Ukrainian.
